Home screen

User can see information related to lease vehicle on home screen. As user can see upcoming service and variant information on home screen. By tapping on view opted services user can see list of services he had opted while leasing the vehicle.

Book Service Request:

Users can book service request from book a service screen. Some fields are mandatory for booking a service request (Current Km, Service request date, Service Type, City and Additional Request). Users can also attach files which are related to current request.

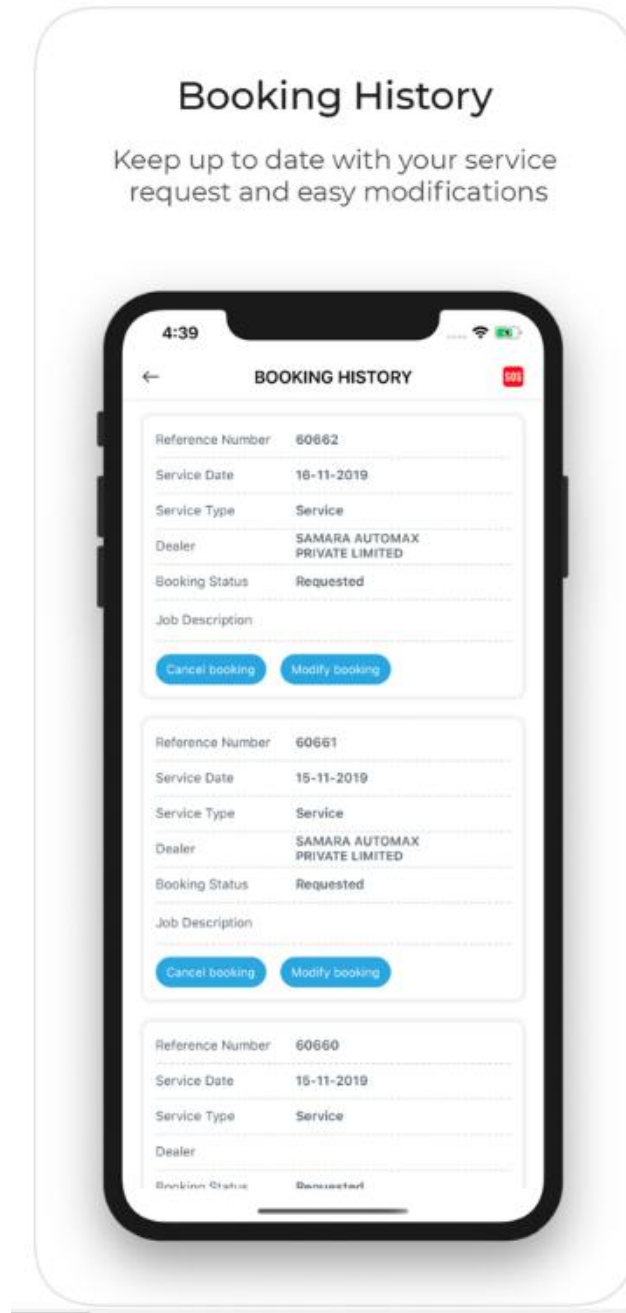

Constraints:

Current KM should always be more than last KM.

The image shows a mobile application interface for booking a service. The screen is titled "Book a Service" with the subtitle "Create a service request without any hassle". The interface includes a header with a back arrow, the text "BOOK A SERVICE", and a "Submit" button. Below the header, there is a section for vehicle details: "Your vehicle" with "KAS1MG0998" and "Asset number" with "10058", and "Vehicle variant" with "City I-Vtec SV CVT". A message states: "Please fill out the details as needed below in order to raise the service request". The form contains several input fields: "Current kilometer" (with a "Last KM(123)" label), "Service request date*" (with a calendar icon), "Service type*" (with a dropdown arrow), "City*" (with a dropdown arrow), and "Nearby workshop" (with a dropdown arrow). There are two checkboxes: "Pickup Required" and "Replacement Required". At the bottom, there is an "Additional Request" field with a "Delete" button.

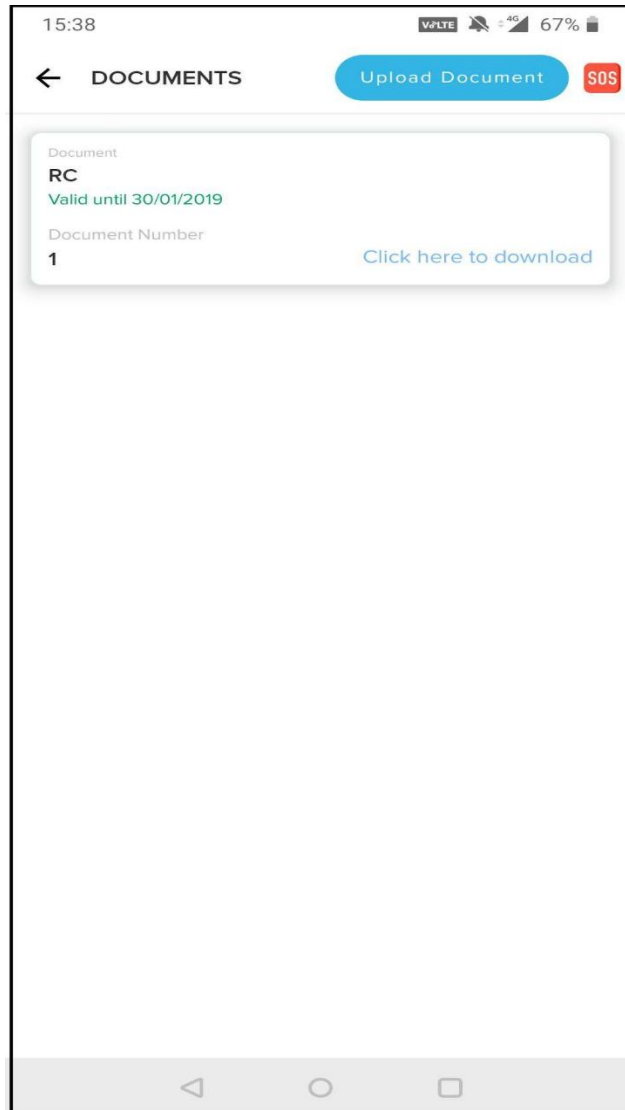

Booking History

Booking history section displays, Previous booking information of user including service date and Job description.

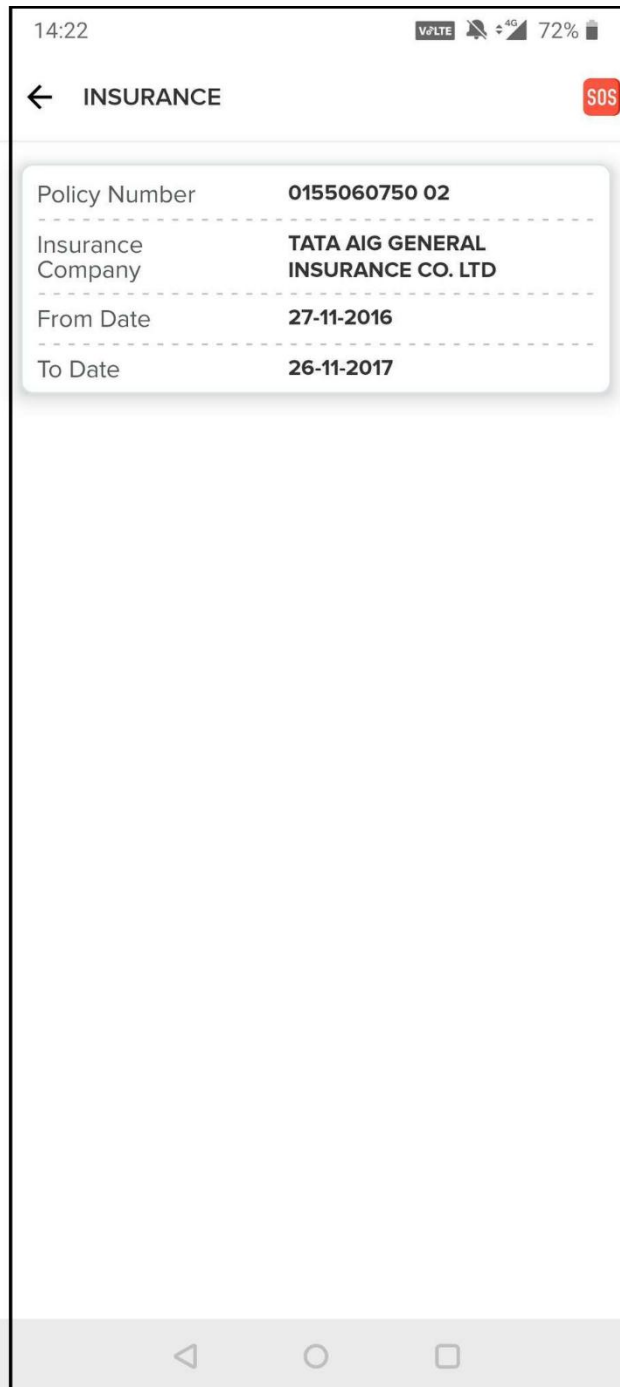

Document Upload

Document upload option provides users to maintain the document log. Every document has an expiry date (Mandatory).
